3. The inflatables should not be operated if wind exceeds 25 mph or in rain or lightning conditions.
4. If during operation the wind becomes excessive (25mph), or it rains, unload the riders, deflate the ride and call Joyful Jumps.

6. **No riders allowed on the inflatable while it is being inflated or deflated.**
7. All riders must remove their shoes.

9. Riders should be sorted by size. Only riders of the same size should be allowed in the ride at the same time.
10. No riders under the age of 3 years old should be permitted without direct supervision from an adult.
11. Riders must remove loose or sharp objects including glasses and dangling jewelry. Glasses should be removed.
12. No food, gum, candy or drinks of any kind are allowed in or around the inflatable at any time.
13. The rated capacity should never be exceeded. The capacity of the ride is as follows:

19. **No** grabbing or hanging on the outside walls or roof. Anyone who does not obey the rules after being warned should be asked to exit the ride (**operators should be made to understand that they are in control of the ride...and removing someone from a ride who is not following rules is important for all riders' safety**)
20. The operator must strictly enforce the rules posted on the warning sign.

**Emergency Procedures**

Emergencies can arise for various reasons. The following are a few examples of emergencies and how they can be handled. This is strictly a guide...please use common sense when an emergency occurs.

**Weather**

Bad weather can arrive in the form of rain, lightning or strong wind. In each case you want to evacuate the ride as quickly and safely as possible.

- **Remain Calm!** If you panic your riders may also panic. Stay calm and stay focused on your job, which is to help your riders exit the ride quickly, but in an orderly fashion.
- After everyone has exited the ride, deflate the ride by turning off the blowers.
- Inflatable should be folded over once so that the interior is protected from the weather.

**Loss of Electrical Power**

When a loss of power occurs the ride will slowly start to deflate.

- Remain Calm!** This situation tends to cause panic...unless the operator stays calm and relaxed. Talk calmly to those inside the unit telling them not to panic while you're helping them walk out.
- Check to see if the blowers have come unplugged or the cords are unplugged from the outlet. If so, plug them back in and the ride will re-inflate.
- Contact or have someone contact Joyful Jumps at 918-504-4074 to check the problem. **Do not leave the ride unattended.**

**Damage**

If the ride becomes damaged while in your operation, take the following steps.

- If the ride is ripped or otherwise begins to lose air, assist all riders from the ride and deflate it.
- Write down what happened, when, and any other details you observed and turn this report in to the Responsible Party.
- Contact Joyful Jumps at 918-504-4074 immediately. Do not attempt to continue to operate the ride.

Hi Abby,

Thank you for choosing Joyful Jumps for your party! We would ask that you have a few things ready for your delivery:

1) Please know where the sprinkler lines are located in and around the area meant for the inflatable. Joyful Jumps is not responsible if a line is pierced with a stake.

2) Measure and know where your inflatable will be placed--being aware of low hanging limbs and power lines--is your gate at least 3 feet wide?? We need a wide gate to get the inflatable into your backyard. Please move any obstacles within the 3 ft wide runway to where your inflatable will be placed.

3) Please do not mow your lawn just before your delivery as cut grass tends to get everywhere both on the children's feet and in the inflatable

4) Pick up (or sweep) the area meant for the inflatable. Please pick up all dog messes, sticks, rocks, glass etc. for the safety of the children and the inflatable

5) If we will be on the concrete please let us know in advance if any grass is available around us to put a few stakes in to secure the units...that is always a good thing for extra stability of the units. Sandbags are good but stakes in the ground are always best when possible.

6) If we will be indoors please make sure your doorway is at least 3ft wide for the inflatable to be brought inside. Please sweep the floor to insure the safety of the inflatable and children!

If you have any questions between now and then please, feel free to give us a call!

Thanks again for your reservation and we sure look forward to serving you and your family!!

I sent over the contract you sent to Abby Tanner for your Dunk Tank for the date of 5/10/24 (Invoice 26791665). The BOE clerk let me know they cannot pay a deposit so can you please omit that part of the contract? You may reply to this email or you can send me a new contract, whichever is easiest for you.
