**Are you tired of the constant struggle?** Even if you've got the basics of classroom management down, trying to get our students to be responsible, work hard, focus, and respect each other (and you) can often feel like fighting a losing battle.

Disrespect, apathy, blank stares - it's certainly not what we anticipated when we got into teaching. No, we dreamed about leading passionate discussions with students who were excited about learning.

**We imagined ourselves building meaningful relationships** that enabled us to make a real difference in our students' lives and create a classroom culture of respect, trust, and responsibility.

It's not impossible, my friend. **You CAN get you & your students working together on the same team.** And that's exactly what we'll do in this training.

## **YOU'LL LEARN HOW TO....**

- Earn your students' respect
- Easily build relationships with challenging students
- Combat the apathy & get your students excited to learn
- Help students take responsibility for their own learning
- End the arguments in your classroom for good
- And much more!

## **Your Instructor**

**Linda Kardamis**

I always wanted to be teacher, but a few months in, I realized **teaching was a whole lot harder than I thought it would be**. Too many of my students just weren't listening to me; many were outright belligerent. My confidence plummeted, and as much as I hated to admit it, I wasn't enjoying teaching. Instead, **I felt like a failure in my own classroom**.

**Struggle resolution**

**But** God wasn't done with me. Through sound advice, a bit of trial and error, and much prayer, I gradually learned to keep my students' attention, and **I started to believe I could actually do this**.

As I stopped living in fear of the next problem, I began to look forward to teaching. And while I loved those ah-ha moments when my students finally got how to solve equations, the truest joy came from watching God change lives through me.

No matter what challenges you're facing, **God wants to use you in your classroom.** You're in the right place. Let's dive

I am so excited to enroll in Classroom Management 101 and learn even more, but I **already feel like I'll be starting off year 2 on much better footing!!** Thanks again! - Dykisha P.

*Linda, you are definitely meeting a need and encouraging teachers with practical, biblical principles! We have highly recommended your workshops to other teachers and will continue to do so.* - Karen W.

Thank you so much for sharing your experiences with the teaching community. **It has made a huge difference in my first day of school already.** My principal dropped in during my first block and gave me positive feedback on practicing procedures until they become rituals and routines. - Caroline

Thanks so much for the insightful training! You have helped me find solutions to one of the pressing issues in my class - dealing with chatter & blurting. - Iseoluwa I.
